10 upvotes

The goal of this project is to teach you how to create a structured, single-page CV using only HTML. You will focus on laying out your education, skills, and career history in a clean, semantic manner. Styling will be addressed in a later project.

In this project, you are required to create a single-page CV (Curriculum Vitae) using only HTML. Your webpage should look like the following image:

Your Name

Junior Frontend Developer

123 Your Street
Your City, ST 12345
(123) 456-7890
no_reply@example.com

Skills

HTML, CSS, JavaScript, Accessibility, Figma to Design, Responsive Web Design, Technical Writing, Presentation

Education

School Name, Location - Degree
Month 20xx to Month 20xx
List of exciting things you did at university

Experience

Company Name, Location - Job Title
Month 20xx to Month 20xx

- List of achievements
- List of achievements
- List of achievements

Skills: List of skills used or gained at this company

Company Name, Location - Job Title
Month 20xx to Month 20xx

- List of achievements
- List of achievements
- List of achievements

Skills: List of skills used or gained at this company

Across the Internet

Add your LinkedIn, GitHub profile links

Key requirements for this project:

- Semantic HTML:** Use appropriate HTML tags to structure your CV.
- SEO Meta Tags:** Include essential meta tags for SEO.
- Open Graph (OG) Tags:** Add OG tags for better social media sharing.
- Favicon:** Add a favicon for your CV page.

The structure of your CV should be easily understandable and ready for styling in a future project.

Submission Checklist:

- Semantically correct HTML structure.
- Single-page layout with sections for education, skills, and career history.
- SEO meta tags in the head section.
- OG tags for better social media sharing.
- A favicon linked in the head section.

By completing this project, you'll gain a solid understanding of how to create a single-page CV using HTML, apply basic SEO principles, and prepare your webpage for future styling. This foundation will enable you to move on to styling the CV using CSS in subsequent projects.
